LUMINOUS DINING AND LOUNGE TABLES

## AICCI T2

---

Our vision was to make a table for dining and gathering spaces. A table that lives in the rhythm of the day of the people around it and marks the cycle of the day with its light. The cool light suitable for morning and recreation can energise, and as the evening darkens, a mellow light can help you to relax after the day's activities.

AICCI T2 is a piece of furniture provide comfort with pleasant light. Making the atmosphere more focused or relaxed with light can happen discreetly and effortlessly. AICCI T2 is an enchanting ambience creator that gathers people around it to enjoy, tune in and cherish delight.

## AICCI T2

### CURATED MATERIALS

Design and materials are in perfect balance to make AICCI T2 the dining and lounge table for today's homes and premises.

The legs of the table are made of solid birch. The warm tone of the wooden legs has been implemented through a chemical-free heat treatment process that gives the naturally light-toned birch wood a beautiful dark brown shade. At same time, thermos treatment makes the wood suitable for outdoor use, moisture and pests resistant.

The steel frame of the table is laser-cut and folded to shape, and is ecologically powder coated to ensure durability, and reduce waste and emissions.

Tabletop's optics are worked from laminated glass and acrylic. This makes light distribution even and enables soft glare-free appearance. Satin finished glass top surface ensure easy-cleaning and feels pleasant to touch, neither does not pick up the reflections that might disturb the eyes.

TIMELESS YET CONTEMPORARY

## AICCI T2

---

Tables' timeless yet contemporary Nordic style appeal to both sight and touch. Slim silhouette and adaptable lighting give the table a dynamic look. A minimalist aesthetics characterised by rounded edges, smooth wood surfaces and clean lines are designed to fit seamlessly in any gathering space from dining room to casual meeting areas. With controllable light user can complement any new or existing scheme just by changing lights intensity and colour.

A photograph of a modern dining table and chairs in a bright room with large windows. The table is a light-colored wood with a dark wood top. The chairs are made of light wood with a curved backrest. The room has a light-colored wall and a large window on the left side. The floor is covered with a light-colored carpet.

PERSONALISED COMFORT

## AICCI T2

---

AICCI T2 dining and lounge tables provides a contemporary way to use combination of the table and light. AICCI T2 table adds possibility to personalise comfort by giving us an alternative that is appealing and functional.

Increasing comfort by table's easy-to-use lighting control which allow to set lighting according to user's various needs throughout the day.
