Aicci Oy

Aicci is an internationally award-winning Finnish design studio and lighting manufacturer. Since the company was founded in 2006, true to our values, we have been working to bring out the finest qualities of light and enhance the joy of life. Our luminaires, manufactured in Muurame, Finland, serve lovers of beautiful and long-lasting light in over 50 countries.

Our journey has been marked by close cooperation with manufacturing industries, and with the masters of contemporary architecture, industrial and lighting design. The experience has helped us to evolve, and also develop and design own lighting collection.

We are a pioneer in the conceiving and manufacturing light panels and lighting based on light-guides. We have produced light panels and lighting fixtures on light guide technology for walls, ceilings, floors, furniture, appliances and various indoor and outdoor installations.

Today, we rely on our unique expertise to create singular innovative and beautiful light solutions, such as luminous furniture, as well as bespoke lighting fixtures for demanding interiors and architectural projects around the world, to embellish daily life sustainably. Delivering holistic bespoke solutions from light generation to lighting control.

The implementation of customised lighting solutions is a multi-faceted service, which proceeds step by step. The best possible end result is achieved through competent cooperation with the customer and the actors involved in the process.

In addition to project lighting, we serve our customers by manufacturing lighting equipment for the manufacturing and production industries and for home lighting.
